

## Remember the Golden Age of Science Fiction?

Many works of science fiction from the 30's, 40's, 50's and 60's are in the public domain, but are forgotten and unavailable to the average reader.

**You can help! Preserve our literary heritage one page at a time!**

**Project Gutenberg** (<http://www.gutenberg.org>) is a digital library with about 26,000 books free for downloading. Any book that is in the public domain is a candidate for inclusion in this digital library.

**Distributed Proofreaders** (<http://www.pgdp.net>) is an online community of proofreaders who strive to make Project Gutenberg the repository of the best free electronic books available. In the last eight years Distributed Proofreaders has produced over 13,000 books for Project Gutenberg for the education, enrichment, and simple entertainment of the world's readers. We proof the classics and scholarly texts, but we also work on cookbooks, children's books, mysteries and science fiction, including works by E. E. "Doc" Smith, Andre Norton, Randall Garrett and H. Beam Piper.

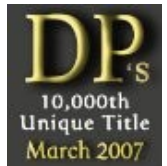

**Proofread some science fiction (or anything else) for posterity!  
Join Distributed Proofreaders today!**
